About Us

Dnyanprassarak Mandal's College and Research Centre was established in 1974 to cater to the needs of Commerce education of the students from North Goa. The institution is located on a plateau overlooking the scenic flower village of Assagao. The campus is spread over a total area of 80,000 square meters.

The College is affiliated to Goa University and recognized by UGC. It has been Accredited by NAAC with "A" Grade (4th Cycle) with a score of 3.15 out of 4.00. The institution has variety of programmes. Along with the regular B.A., B.Sc. and B.Com. programmes, self-financing programmes such as B.B.A., B.C.A., M.Com., M.Sc. in Pharmaceutical Chemistry, and Organic Chemistry and Research Centres in Chemistry and Commerce add to the juggernaut of the valuable contribution to the institution over the last four decades in the field of education in the state of Goa.

The Library and Information Centre of the College is fully automated. The library is Wi-Fi enabled and has a separate air-conditioned reading section for students and faculty members. In addition, it also has a separate discussion room, which is mainly used for Project discussions. The library website is one of the best websites for the sources of information in higher education. The library has subscribed to the EPWRFITS database and N-LIST consortium through which students and faculty members can access more than 30 lakhs e-books and journals. The library is ranked in the top 10 colleges of India (three times) for using e-resources of N-LIST during the years 2020 & 2021.

About the Workshop

In the current era of data-driven research, researchers across disciplines encounter large volumes of data that require effective analysis and clear visualization for meaningful interpretation. Proficiency in research data analysis and visualization not only enhances the quality of research output but also aids in better decision-making and dissemination.

Understanding statistical methods, analytical tools, and visualization techniques is crucial for researchers, faculty, and postgraduate students. This workshop aims to equip participants with practical knowledge and hands-on experience in analyzing research data and creating impactful visual representations using modern tools.
